

Basic Party Planner

I can't remember a moment in my life when I wasn't planning a party. Whether it was a sleep over when my sister turned 13 years old; a Valentine's day party for single souls in my dorm; and every birthday, holiday and celebration that we have had in my family. I figured out that I needed some sort of standard form that I could use again and again, so I made a basic party planner template.

It provides great checklists for decoration, entertainment and food and drinks: the holy trio of parties. It also provides a template for keeping track of your guests. Print it as many times as you would like, and when friends ask where did you get it, just send them to our page for great party tips and ideas, and of course to download this great tool. Until the next time!

X, Mara
